TECHNICAL SKILLS

Web Development: HTML, CSS, JavaScript, Bootstrap

AI and Developer Tools: Microsoft Copilot Studio, Git, GitHub, VS Code

Currently Learning: React, Node.js, Automation

PROJECTS

Moderator | Personal AI Agent · Microsoft Copilot Studio

Reviewer | Personal AI Agent · Microsoft Copilot Studio

- Independently developed Moderator to pre-analyze article comments and surface insights and recommendations for content moderation decisions.
- Built Reviewer to assess article text, supplied images, and video captions or transcripts; supports human review without directly analyzing video footage.
- Used the agents in a personal workflow to speed up review and support more consistent decisions on complex content.

AnimePlaka | KodeGo Project · HTML, CSS, JavaScript

- Sole developer of an anime entertainment website combining series, films, and news, with viewing across devices and web browsers.

TinDog | Udemmy Project · HTML, CSS, Bootstrap

- Built a landing page for a fictional Tinder-inspired service for dogs, practicing page structure, styling, and Bootstrap layouts.

PROFESSIONAL EXPERIENCE

Accenture — Trust & Safety New Associate | June 2025 – Present

- Review user-generated articles, comments, and usernames for compliance with community guidelines.
- Apply moderation policies to identify harmful content, mitigate digital risks, support platform safety, and help protect brand reputation.
